REASONS FOR ALLOWANCE

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

As per independent claims 1 and 11, the prior art does not teach a thermostat apparatus/method as recited, and particularly the combined control steps of determining, from the temperature measurements, whether the sensed room temperature has finished a post-demand overshoot; recording an evaluation temperature, in response to determining that the sensed room temperature has finished the post-demand overshoot; and deciding whether to make the automatic changeover by periodically comparing the sensed room temperature with the evaluation temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
